LEHI, Utah – November 4, 2021– Nature’s Sunshine Products, Inc. (Nasdaq: NATR) (Nature’s Sunshine), a leading natural health and wellness company of high-quality herbal and nutritional products, reported financial results for the third quarter ended September 30, 2021.

Third Quarter 2021 Financial Summary vs. Same Year-Ago Quarter

- Net sales increased 14% to a record \$114.7 million compared to \$100.3 million.
- Net income was \$5.5 million, or \$0.24 per diluted share, compared to \$7.2 million, or \$0.34 per diluted share.

Management Commentary

“Once again, we delivered the largest sales quarter in the 49-year history of the company,” said Terrence Moorehead, CEO of Nature’s Sunshine. “Every market we operate in is growing and we see ample runway for continued expansion. We have witnessed a dramatic, fundamental change in Nature’s Sunshine’s business as our powerful global growth strategies take effect. In fact, the investments we’ve made to re-brand, sharpen our sales fundamentals, and revamp our website contributed to broad customer and sales growth during the quarter.

“From a supply chain perspective, we used our strong balance sheet to increase product availability and leveraged our in-house production capabilities to be more agile to our customers’ needs. We are confident this strategy will better position us to satisfy demand in a timely manner.

“As we look to the final quarter of the year, I’m proud of our team’s execution of our transformation initiatives. While external challenges remain across the globe, our brand momentum, our investments in growth initiatives and our strong balance sheet position us well to continue to drive shareholder value.”

Third Quarter 2021 Financial Results

Net Sales by Operating Segment (Amounts in Thousands)						
	Three Months Ended September 30, 2021	Three Months Ended September 30, 2020	Percent Change	Impact of Currency Exchange	Percent Change Excluding Impact of Currency	
Asia	\$ 48,417	\$ 38,099	27.1 %	\$ 1,165	24.0 %	
Europe	21,813	18,006	21.1	105	20.6	
North America	37,738	37,557	0.5	151	0.1	
Latin America and Other	6,778	6,588	2.9	130	0.9	
	<u>\$ 114,746</u>	<u>\$ 100,250</u>	14.5 %	<u>\$ 1,551</u>	12.9 %	

Net sales in the third quarter increased 14.5% to a company record of \$114.7 million compared to \$100.3 million in the same year-ago quarter. The increase was due to the continued execution of business transformation initiatives, launch of new products, and the easing of COVID-19-related restrictions in certain key markets. Excluding foreign exchange rates, net sales in the third quarter of 2021 increased 12.9% compared to the year-ago quarter.

Gross margin in the third quarter improved 147 basis points to 74.4% compared to 72.9% in the year-ago quarter. The increase in gross margin is primarily a result of changes in market mix and inventory obsolescence reserves recorded in the prior year.

Volume incentives as a percentage of net sales were 31.2% compared to 34.2% in the year-ago quarter. The decrease in volume incentives is partially due to changes in market mix and growth in NSP China. The decrease also reflects expected overall cost savings from the September 2020 launch of our new consultant sales and compensation plan in North America and LATAM.

Selling, general and administrative expenses in the third quarter were \$39.5 million compared to \$33.3 million in the year-ago quarter. The increase was primarily attributable to higher costs associated with incremental variable service fees in China from net sales growth, and the implementation of business transformation and sales growth initiatives in other markets. As a percentage of net sales, SG&A expenses were 34.4% for the third quarter of 2021 compared to 33.2% in the year-ago quarter.

Operating income in the third quarter of 2021 increased 83% to \$10.0 million, or 8.7% of net sales, compared to \$5.5 million, or 5.5% of net sales, in the year-ago quarter.

Other income (loss), net, in the third quarter of 2021 was a loss of \$0.9 million compared to income of \$0.7 million in the third quarter of 2020. Other income (loss), net, primarily consists of foreign exchange gains (losses) as a result of net changes in foreign currencies primarily in Asia, Europe and Latin America. The provision for income taxes was \$3.7 million in the third quarter of 2021 compared to a benefit of \$1.0 million for the year-ago quarter.

GAAP net income attributable to common shareholders decreased to \$4.9 million, or \$0.24 per diluted common share, compared to \$6.8 million, or \$0.34 per diluted common share, in the third quarter of 2020. Net income attributable to NSP China increased to \$3.0 million, or \$0.15 per diluted common share, for the third quarter of 2021, compared to \$2.1 million, or \$0.10 per diluted common share, for the third quarter of 2020.

Non-GAAP net income attributable to common shareholders decreased to \$4.1 million, or \$0.21 per diluted common share, compared to \$6.9 million, or \$0.34 per diluted common share in the prior year period. Non-GAAP net income, which is a non-GAAP financial measure, is defined here as net income from continuing operations before less-frequent items including, among other things, value-added-tax (VAT) refunds. A reconciliation of Non-GAAP net income to GAAP net income is provided in the attached financial tables.

Adjusted EBITDA increased 38% to \$12.9 million in the third quarter compared to \$9.4 million in the third quarter of 2020. This increase was driven primarily by the aforementioned increase in net sales. Adjusted EBITDA, which is a non-GAAP financial measure, is defined here as net income from continuing operations before taxes, depreciation, amortization and other income/loss adjusted to exclude share-based compensation expense and certain noted adjustments. A reconciliation of net income to Adjusted EBITDA is provided in the attached financial tables.

Balance Sheet and Cash Flow

Net cash provided by operating activities was \$20.3 million for the nine months ended September 30, 2021, compared to \$26.8 million provided in the prior year period. Capital expenditures during the nine months ended September 30, 2021 totaled \$4.6 million compared to \$3.5 million in the comparable period of 2020. During the nine months ended September 30, 2021, the Company repurchased 350,000 shares at a total cost of \$6.0 million. As of September 30, 2021, the Company had cash and cash equivalents of \$75.5 million and \$2.7 million of debt.

Non-GAAP Financial Measures

We have included information which has not been prepared in accordance with generally accepted accounting principles (GAAP), such as information concerning non-GAAP net income, Adjusted EBITDA and net sales excluding the impact of foreign currency exchange fluctuations.

We utilize the non-GAAP measures of non-GAAP net income and Adjusted EBITDA in the evaluation of our operations and believe that these measures are useful indicators of our ability to fund our business. These non-GAAP financial measures should not be considered as an alternative to, or more meaningful than, U.S. GAAP net income (loss) as an indicator of our operating performance.

Other companies may use the same or similarly named measures, but exclude different items, which may not provide investors with a comparable view of Nature's Sunshine Products' performance in relation to other companies. We have included a reconciliation of net income to Adjusted EBITDA, the most comparable GAAP measure. We have also included a reconciliation of GAAP net income to Non-GAAP net income and Non-GAAP Adjusted EPS, in the attached financial tables.

Net sales in local currency removes, from net sales in U.S. dollars, the impact of changes in exchange rates between the U.S. dollar and the functional currencies of our foreign subsidiaries. This is accomplished by translating the current period net sales into U.S. dollars using the same foreign currency exchange rates that were used to translate the net sales for the previous comparable period.

We believe presenting the impact of foreign currency fluctuations is useful to investors because it allows a more meaningful comparison of net sales of our foreign operations from period to period. Net sales excluding the impact of foreign currency fluctuations should not be considered in isolation or as an alternative to net sales in U.S. dollar measures that reflect current period exchange rates, or to other financial measures calculated and presented in accordance with U.S. GAAP.
