Management Commentary

"Nature's Sunshine delivered another strong quarter, with double-digit growth in Asia/Pacific and North America," said CEO Terrence Moorehead. "APAC saw strong order growth with a 12% increase in local currency sales, while the North America business continued to respond well to our digital investments and improved field activation, delivering 11% growth for the quarter, the strongest growth in many years.

"We're also beginning to see the results of our gross margin initiatives which drove a 150-basis point improvement in gross margin in the third quarter. Since the first quarter of this year, gross margin has improved from 70.8% to 73.1% in the third quarter of 2023.

"These results demonstrate the strong underlying fundamentals of our business. Our continued above-market growth and aggressive cost initiatives combined to deliver a 50%+ increase in EBITDA in Q3 to \$10.3 million. We are excited about our continued progress and the opportunities for further growth and profitability as we move forward."

Third Quarter 2023 Financial Results

	Net Sales by Operating Segment (Amounts in Thousands)										
	 ree Months Ended ptember 30, 2023	nded Ended Impact of mber 30, September 30, Percent Currency		Currency	Percent Change Excluding Impact of Currency						
Asia	\$ 52,218	\$	47,878	9.1 %	\$ (1,578)	12.4 %

	\$ 111,202	\$	104,506	6.4 %	\$ (720)	7.1 %					

Net sales in the third quarter increased 6% to \$111.2 million compared to \$104.5 million in the same year-ago quarter. Excluding the impact from foreign exchange rates, net sales in the third quarter of 2023 increased 7.1% compared to the year-ago quarter.

Gross profit margin in the third quarter increased 150 basis points to 73.1% compared to 71.6% in the year-ago quarter. The increase was driven by improvements in market mix, price increases in various markets, and

contribution margin improvement initiatives, partially offset by increases related to inflation and unfavorable foreign currency exchange in the third quarter of 2023.

Volume incentives as a percentage of net sales were 30.7% compared to 31.6% in the year-ago quarter. The decrease was primarily due to changes in market mix.

Selling, general and administrative expenses ("SG&A") in the third quarter were \$41.3 million compared to \$36.8 million in the year-ago quarter. The increase was driven primarily by increases in service fees in China, compensation, variable costs related to sales growth, and investments to drive digital growth and strategic initiatives. As a percentage of net sales, SG&A expenses were 37.1% for the third quarter of 2023 compared to 35.2% in the year-ago quarter.

Operating income in the third quarter increased to \$5.8 million, or 5.2% of net sales, compared to \$5.0 million, or 4.8% of net sales, in the year-ago quarter.

Other loss, net, in the third quarter of 2023 was a loss of \$0.9 million compared to a loss of \$2.3 million in the third quarter of 2022. Other loss, net, primarily consists of foreign exchange losses as a result of net changes in foreign currencies, mostly in Asia. The provision for income taxes was \$1.8 million in the third quarter of 2023 compared to \$2.5 million for the year-ago quarter.

GAAP net income attributable to common shareholders increased to \$2.8 million, or \$0.15 per diluted common share, compared to \$0.1 million, or \$0.00 per diluted common share, in the third quarter of 2022. Net income attributable to NSP China increased to \$1.6 million, or \$0.08 per diluted common share, for the third quarter of 2023, compared to \$0.6 million, or \$0.03 per diluted common share, for the third quarter of 2022.

Adjusted EBITDA in the third quarter increased 50% to \$10.3 million compared to \$6.8 million in the prior year quarter. The increase was driven primarily by the aforementioned increase in operating income. Adjusted EBITDA, which is a non-GAAP financial measure, is defined here as net income (loss) from continuing operations before taxes, depreciation, amortization, and other income (loss) adjusted to exclude share-based compensation expense and certain noted adjustments. A reconciliation of net income (loss) to Adjusted EBITDA is provided in the attached financial tables.

Balance Sheet and Cash Flow

Net cash provided by operating activities was \$31.6 million for the nine months ended September 30, 2023, compared to \$2.9 million used in the prior year period. Capital expenditures during the nine months ended September 30, 2023 totaled \$9.2 million compared to \$4.7 million in the comparable period of 2022. During the nine months ended September 30, 2023, the Company repurchased 180,000 shares at a total cost of \$2.2 million or \$12.35 per share. As of September 30, 2023, the Company had cash and cash equivalents of \$76.0 million and \$0.2 million of debt.

Outlook

The Company expects full year 2023 net sales to range between \$443 - \$451 million, but now expects adjusted EBITDA to range between \$37 - \$40 million, compared to the original expected range of \$34 - \$38 million.

Non-GAAP Financial Measures

We have included information which has not been prepared in accordance with generally accepted accounting principles (GAAP), such as information concerning non-GAAP net income (loss), Adjusted EBITDA and net sales excluding the impact of foreign currency exchange fluctuations. Non-GAAP net income (loss) is defined here as net income (loss) from continuing operations before less-frequent items including, among other things, value-added-tax (VAT) refunds. A reconciliation of Non-GAAP net income (loss) to GAAP net income (loss) is provided in the attached financial tables.

We utilize the non-GAAP measures of non-GAAP net income (loss) and Adjusted EBITDA in the evaluation of our operations and believe that these measures are useful indicators of our ability to fund our business. These non-GAAP financial measures should not be considered as an alternative to, or more meaningful than, U.S. GAAP net income (loss) as an indicator of our operating performance.

Other companies may use the same or similarly named measures, but exclude different items, which may not provide investors with a comparable view of our performance in relation to other companies. We have included a reconciliation of net income to Adjusted EBITDA, the most comparable GAAP measure. We have also included a reconciliation of GAAP net income (loss) to Non-GAAP net income (loss) and Non-GAAP Adjusted EPS, in the attached financial tables.

Net sales excluding the impact of foreign currency exchange fluctuations removes, from net sales in U.S. dollars, the impact of changes in exchange rates between the U.S. dollar and the functional currencies of our foreign subsidiaries. This is accomplished by translating the current period net sales into U.S. dollars using the same foreign currency exchange rates that were used to translate the net sales for the previous comparable period.

We believe presenting the impact of foreign currency fluctuations is useful to investors because it allows a more meaningful comparison of net sales of our foreign operations from period to period. Net sales excluding the impact of foreign currency fluctuations should not be considered in isolation or as an alternative to net sales in U.S. dollar measures that reflect current period exchange rates, or to other financial measures calculated and presented in accordance with U.S. GAAP.
